Dear Commissioner:

It has been brought to my attention that four claims have been filed with the FDA for action. These are for approval of stating that saw palmetto aid the symptoms of benign prostatic hyperplasia; psyllium husk seeds and the risk of heart disease; folic acid, vitamin B6 and vitamin B12 and cardiovascular disease; and vitamin E and the risk of cardiovascular disease.

Thank you for approving speedily these claims.

Sincerely,

Mrs. Louise L. Hudspeth
